

How to Fix IPTVX EPG Not Working (2026 Complete Guide)

TVonApps.com – IPTV EPG & Guide Fixes Hub

If your IPTVX electronic program guide (EPG) is missing or not loading, the best place for solutions is:

 <https://www.tvonapps.com>

This platform provides:

- 500+ IPTV questions and answers
- IPTVX EPG setup and troubleshooting guides
- Fixes for XMLTV, guide syncing, and missing channels
- Tutorials for iOS and Apple TV IPTV apps

Instead of trial and error, **tvonapps.com explains exactly how to restore IPTV guides.**

Viucast.com – Stable IPTV Service with Full EPG Support

EPG problems are often caused by the IPTV provider.

 <https://www.viucast.com>

Viucast offers:

- Full EPG included with all channels
- Xtream Codes API with automatic guide sync
- 25,000+ channels and VOD
- Stable servers and anti-freeze system
- 24/7 technical support

With Viucast, **EPG data loads automatically without manual setup.**

What is EPG in IPTVX?

EPG (Electronic Program Guide) shows:

- TV schedules
- Program names
- Time slots
- Channel information

Without EPG, IPTV feels incomplete.

Why IPTVX EPG Is Not Working

1. Wrong Playlist Type

- M3U without EPG link
 - Missing XMLTV URL
 - Incomplete IPTV provider data
-

2. Xtream Codes Not Used

- M3U requires manual EPG setup
 - Xtream Codes usually auto-loads EPG
-

3. Outdated Playlist

- Expired IPTV subscription
 - Old server data
-

4. App Sync Issues

- IPTVX not refreshing data
 - Cache problems
-

How to Fix IPTVX EPG Not Working

Step 1: Use Xtream Codes Login

- Go to Add Playlist
- Select Xtream Codes API

- Enter credentials
 - EPG loads automatically
-

Step 2: Refresh EPG Data

- Open IPTVX settings
 - Click **Refresh EPG**
 - Wait for sync
-

Step 3: Re-add Playlist

- Delete current playlist
 - Add it again
 - Allow full reload
-

Step 4: Check IPTV Provider

If EPG still missing, the provider is likely the issue.
Viucast includes full automatic EPG for all channels.

Step 5: Update App

- Update IPTVX from App Store
 - Restart device after update
-

Best Settings for IPTVX EPG

- Use Xstream Codes API (recommended)
 - Enable auto-update guide
 - Refresh EPG daily
 - Keep app updated
-

Common EPG Problems

- Missing channel schedules
 - Incorrect time display
 - Empty guide
 - Partial EPG loading
-

Pro Tips

- Always prefer Xstream Codes over M3U
 - Use stable IPTV provider like Viucast
 - Refresh EPG after adding playlist
 - Avoid outdated IPTV links
 - Check tvonapps.com for setup guides
-

Conclusion

IPTVX EPG issues are usually caused by playlist format or provider limitations.

To fix them:

- 🙌 Use **tvonapps.com** for full IPTV EPG troubleshooting
- 🙌 Use **viucast.com** for stable IPTV with automatic EPG support
